DETAILED ACTION

Continued Examination Under 37 CFR 1.114

- 1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 27, 2003 has been entered.
- 2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 3. The Examiner has carefully considered Applicant's amendment and accompanying response filed May 27, 2003. The 112/1st and 2nd rejections have been overcome.

Election/Restriction

4. Newly submitted claims 40-46 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: these claims are drawn to the method of making a reinforcement for cementitious boards.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 40-46 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 112

5. Claims 1, 2, 5-7, 9, and 39 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant has amended claim 1 to read "wherein said alkali-resistant thermoplastic material is selected from the group consisting of polyolefins and olefin copolymers." This amendment is considered to be new matter because no support was found in the specification for the amendment to the claims.

Claim Rejections - 35 USC § 103

- 8 and 36-38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Newman et al. (US 6,054,205), in view of Paulson et al. (US 6,171,984), as shown in Paper #5. Rejection is maintained.
- 7. Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Newman et al. (US 6,054,205), and Paulson et al. (US 6,171,984), as applied to claim 8 above, and further in view of Fangeat et al. (US 4,967,548) or Hourahane (US 6,335,087), as shown in Paper #5. Rejection is maintained.
